

## Leading Without Authority

### Roleplay 3 – Network Member Conversation

#### **Person B – Feedback receiver**

You are very good at your job and have great relationships inside and outside E+H. You are the “ideas” person. You are always looking for new, better, quicker, more innovative ways of doing things. Sometimes you feel that E+H is slow at change and innovation and this frustrates you.

Your behavioural preference is about being imaginative and creative and you should behave in a way during this roleplay that demonstrates this.
